The Riectric Battery for Premoting Speed Has Reached the West.

Little Fred's Victory a Big Surprise-Martin Riding in Great Form.

The electric battery invented for the purposs of premoting speed and improving the breed of thoroughbred horses has reached the med on a horse yesterday say that the animal Jumped fifteen feet at each prod of the spura. The horse was Little Crete in the third race at the Roby (Ind.) track yesterday. Jockey Koha Bad she mount and the judge's attenhom was first attracted by the action of the horse every time Kuhn touched him with the had weighed in he was taken to a room and arched. There a complete cell battery was connecting with the spurs. This, no doubt, is the same contrivance first used at er and later at Guttenburg. It was oce used on Gyda, a 100 to 1 chance, at the atter track with such good effect that the mare won, beating such a good performer as Ectipee. The offenders have been ruled off ection taken. There was no rule covering the case, but the officials instantly put one into force. Spurs are bad enough to stick into a horse's sides, but when they are chock full of condensed lightning the effect is grue and most startling to the horse.

is in said that Ed. Corrigan has offered \$7,500 for the three-year-old colt Wildwood who ran so well at the San Francisco meet ng. The offer was refused, for the owners o then ordinary morit.

"Yed" Sleane, who is riding at East St Louis, docusres that only in the West is true borsemenship appreciated, and that Kastern racing folks don't know a good thing when they see it. From this Restern turimen are to believe that "Tod" Sloane was a good thing missed. The writer can assure the great "Tod" that the Masterners shed real tears when he left for the West-tears of joy.

Race-goers at St. Louis were treated to a nevelty a few days ago such as Hasterners have never been privileged to witness. The secsion was when Hoodoo won a selling rece. He was put up at suction and some case cormanced to hoist his price, whon sud-dealy the horse's owner, a Mrs. C. W. Jack-son, burst into tears and raised a great hub-but admit the heartleanness of men in gen-cel. Reedlass to say that the would-be taken was routed in the first round and Mrs. Jackson saw her horse go back to his stable.

Que Easten, of the firm of Kaston & Larrabia, will train the firm's string next season in place of "Doc" Marr, who has had charge of the horses for some years back.

Jimmy Mara, the well-known steeplechase tocker, has, according to report, been engaged to train for the Christys next season. He will have Pactolus, English Lady, Uncle Jim and other good ones in his string. It this news to strik, then Jimmy has struck a streak of good luck at last, and his trionds will wish him all success.

Starter Jack Chinn is improving steadily from the pistol shot wound inflicted by Polleman Annuary during e row at the East st. tools track and will shortly resume his duties as starter at the Hawthorne (Chicago, Chicago,

The greatest surprise at Guttenburg yesterday was the victory of Little Fred in the mile handless. Little Fred's torts has been sprinting and few expected that he would go the rosts. He went off in front, however, and rating shoung in easy style won in a canter by a length. George Harris was one of the lucky ones who thought Little Fred would win, and he cashed several swell bets on Roller's horse.

King Crab was ridden by Tenny, and be exercised poor judgment. He managed to get away last, and could never get the old horse in front. Let King Crab get away in the lend and make his own running and it will take a cracking good horse to beat him.

Martin is riding in good form, and judging y the determination with which he rides does not ravorites he is endeavoring to make a second for himself. This boy is not as black as a is painted, and he is doing remarkably odd work at present. He landed three winders yesterday.

The jumping race was more exciting the these contests usually are. My Fellow, states and Ecarte had a tremendous rathrough the stretch, fluishing neeks apart the order named.

Appoint tox was a disappointment in it restling race posterday. He gave away to of weight in his previous race, and when it of weight in the previous race, and when it of the constant with the others the tale looked for him to win. Josie, however, he has been successful to the start. The latter is fair filly, but Lakeland declares he has of that can tow-rope her.

Bowery ran a cracking good race yesterds and the first time he hits his own company will come very near scoring a bracket.

One hundred against \$2, "Thanks," said smilling bookmaker as he handed a pusi-tion to the "piker." The last word we emphasized by the penciller and he no don was really grateful for the gift.

Mr. Hereile, the French bookmaker, has found business so good at Guttenburg that he started another book under the bame of Liegaler.
